

R.J. HARIHARAN

Java Full Stack Developer

9342305427 • rjhariharan1@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#) • Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building and maintaining production web applications using Spring Boot, React.js, MySQL, and MongoDB. Experienced in REST API development, authentication systems, auction workflows, and frontend-backend integration. Familiar with Git, Agile practices, and MVC architecture.

PROFESSIONAL EXPERIENCE

Software Developer | Vvendu

Nov 2025 – Present

Chennai, Tamil Nadu

- **Contributed to** development and maintenance of 5 production web applications across frontend and backend modules, handling broader responsibilities after team restructuring
- **Developed features** in React.js + Spring Boot + MySQL applications including vehicle listing, event creation, and auction management modules for lenders and dealers
- **Built and debugged** a real-time bidding platform with OTP verification, email notifications, and CAPTCHA (Alitcha) security integration
- **Maintained** MERN stack applications (MongoDB, Express.js, React.js, Node.js) used for post-transaction data processing and operational workflows
- **Integrated RESTful APIs**, implemented authentication flows, and performed MySQL and MongoDB database operations across all applications
- **Managed source code** using Git — committing and pushing updates consistently after every feature and bug fix across all production applications

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript (Basic), SQL

Frontend: React.js, HTML5, CSS3, Flexbox

Backend: Spring Boot, Spring MVC, Hibernate, JDBC, Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Auth & Security: OTP, Email Verification, CAPTCHA, Session Management

Tools & Testing: Git/GitHub, Postman, JUnit (Basic), VS Code, Eclipse

Methodologies: Agile/Scrum, MVC Architecture, SDLC

Cloud: AWS (Fundamentals)

PROJECTS

Restaurant Management System — Java, JDBC, JSP, Servlets, MySQL | GitHub: [\[link\]](#)

- Full-stack CRUD application with DAO/POJO architecture, dynamic cart management, session handling, and order processing using a relational MySQL schema.

Library Management System — Spring Boot, React.js, MySQL | Ongoing

- Full-stack app with RESTful APIs for admin and user modules covering book management, borrow tracking, and role-based access control.

RJ Cinemas — React.js, REST API | Live Demo: [\[link\]](#)

- Responsive web app displaying movies using real-time third-party API integration with dynamic UI and component-based React architecture.

EDUCATION

B.E. — Electronics & Communication Engineering

CGPA: 7.7 / 10

St. Joseph's College of Engineering and Technology, Anna University | 2025

CERTIFICATIONS & TRAINING

Full Stack Web Development Training — TAP Academy
